Attn: To Whom it May Concern

I represented a family in a tragic drowning case involving their young daughter in South Georgia. I hired Dr. John Fletemeyer to serve as an expert witness early on in the investigation of this case. Dr. Fletemeyer's assistance was extremely beneficial as we navigated through the various issues concerning the risks associated with residential swimming pools. I was in frequent contact with Dr. Fletemeyer as the case progressed and throughout the litigation, including numerous depositions and site inspections.

Dr. Fletemeyer's work was excellent and his response time was equally impressive. We were able to resolve our case at mediation, but I could tell that I picked the right expert because of the enthusiasm and passion for saving those at risk for drowning was unmatched by the many experts I've worked with in other cases.

I would wholeheartedly recommend Dr. John Fletemeyer to any other law firms or individuals seeking expertise in the field of aquatic risk including drowning and serious aquatic accidents.

Sincerely,

JON R. HAWK

JRH/kag
